

Ricki Lunam

ACP Implementation Manager

(MBA, PRINCE2 practitioner, PGDip advanced nursing, BN)

Ricki is the implementation manager for the Advance Care Planning programme. Her background is in nursing and in particular, aged care. Ricki works alongside local DHBs and regional teams to support them with development of projects and implementation of advance care planning.

Her role includes scoping digital options for advance care plans to improve access and develop processes across the DHBs for ACP documentation and is working with specialists to build learning management systems to enable local learning opportunities. Ricki is also focusing on monitoring and evaluation projects for the programme, to measure and ensure the needs of consumers and clinicians are being met.
